

STUDY REPORTS ON MEXICO CONDITIONS

President and Secretary of State Spend Day Reading Reports of Situation

NOT CONSIDERED ACUTE

Present Condition of Affairs Is Not Considered Serious in Washington

BRYAN MAY RESUME LECTURES

WASHINGTON, July 29.—President Wilson and Secretary Bryan today devoted themselves to a study of the voluminous reports at their disposal on conditions in Mexico. Indications were that with the appearance before the senate committee on foreign relations of the ambassador Henry Lane Wilson, the last stage in the program of the administration to discover the facts of the situation before announcing a policy would be reached.

While a resolution in the house called for a joint committee to obtain documents in the Mexican situation and another in the senate sought the opinion of that body on the question of recognizing the belligerency of the constitutionalists administration and again declaring that there would be no haste in formulating a definite policy toward Mexico, Secretary Bryan stated that no proposition for mediation had been submitted to either of the two factions in Mexico and incidentally remarked that he might go back to the lecture platform in a few days. The present condition of affairs is not considered acute here.

May Delay Development.

The development of a policy by the United States may be delayed to observe the outcome of efforts being made by leading Mexicans to bring about an understanding between the two warring sides.

Some administration officials have proposed that American policy be pursued along a succession of alternatives.

First, they suggest the United States should refrain from interfering while the Mexican leaders themselves endeavor to compose their differences. The attitude of the United States against recognizing the Huerta administration already is being outlined in Mexico according to reports here as indicating that the abdication of Huerta in favor of a compromise provisional is inevitable.

Second, should all efforts by the Mexican to adjust the dispute fail, it is proposed by influential members of the senate that the embargo on arms be lifted and the two factions be permitted to obtain munitions of war on equality. Some senators freely predicted a decisive result in quick time under those circumstances.

Third, should peace be delayed the suggestion is that the United States offer to mediate through a commission.

Fourth, as at a last resort, it is suggested that a tripartite commission composed of representatives of the United States and Latin Americans could endeavor to bring about a settlement by peaceful means.

A declaration from President Huerta that no American in Mexico shall suffer injustice or violence "with his conscience" was made public by the state department today in the following announcement:

Huerta's Statement.

President Huerta has expressed himself as regretting very much that the American government should ascribe to the influence of the Mexican government any action which might be construed as antagonistic to Americans during his occupancy of the executive authority and desires the state department to be assured that no injustice or violence shall be done to Americans with his conscience while he is in his present position.

The Mexican consul at El Paso has informed the Mexican foreign office that the matter of the shooting of Dixon has been satisfactorily arranged and it is stated that the government at Mexico city seems most desirous of meeting the desires of the United States in every way possible.

Reports to the state department today said that Carlisle P. Eyrer, who has been acting secretary of state since July 10th, pending the arrival of the newly appointed Secretary Frederic C. Gamba, left office today and in the interval until August 15th, when Secretary Gamba will take office the port folio of foreign affairs will be held by the present minister of public instruction Dr. Garza Aldape. The latter has spent much time in the United States and has been in sympathy with American institutions. Commander Kitterell of the Gunboat Wheeling reported from Frontera that American fears there have been allayed by the arrival of 400 Mexican federal troops who are driving the rebels away from the city.

Admiral Fletcher, commanding the American squadron in the gulf of Mexico, reported that he intended to order the Gunboat Wheeling to visit Huerta, Mexico, Vera Cruz, state, Campeche, in Tabasco and Progreso in Yucatan, to observe conditions as they affect Americans and other for-

GOVERNOR ATTEMPTS TO ARRANGE CONFERENCE

OPERATORS AND STRIKERS MAY CONFER AT LANSING

Operators Will Be Asked Today To Send Five of Their Men to Confer With Five Strikers in Governor Ferris' Office—Rioting and Fighting Continues.

CALUMET, Mich., July 29.—Operators of the Lake Superior Copper mines will be asked officially tomorrow whether they will send five of their number to Lansing to confer in Governor Ferris' office with five representatives of the striking miners.

General P. L. Abbey in command of the state troops here so announced tonight after receipt of a message from Governor Ferris in which the state executive intimated that he was willing to use his good offices in bringing order out of the industrial chaos which has kept 15,000 men idle for a week.

The news of the governor's action followed reports of a serious fight between factions of miners near the Superior Mine on the south range and of sluggings in various locations on the Northern end of the strike zone. The trouble resulted from the Superior fight in which two men of a party of ten men were so badly beaten that there is little chance for their recovery.

Fears of Superior Mine strikes that men from Atlantic were seeking to replace them caused the outbreak late today. The men from the latter location had walked the three miles to Superior and inquired about the prospects of a resumption of underground work. On their way back they were set upon by three converging parties of Superior men and a free-for-all fight with clubs, stones and fists resulted. Seven of the visitors escaped but two of the others were seriously cut and the third was beaten into insensibility.

The Atlantic men said they recognized eleven of their assailants and warrants were sworn out for them. Six prisoners were taken to county jail a few hours later by Sheriff's deputies.

At North Kensington mine Gust Olson, a powerful fireman was beaten on his way home from work and required hospital treatment. Olson knocked out four of his opponents but succumbed to force of numbers.

Starting of pumps in the Clumet and Hecla conglomerate properties of Calumet was accomplished today under a heavy guard of soldiers.

Tonight additional guards were placed all about the shaft houses of the companies.

WILL HOLD ONE HUNDRED MILE MOTOR BOAT RACE AUGUST NINTH

Race Will Be Under Auspices of St. Paul Club and Will Be From St. Paul to Red Wing and Return.

St. Paul, July 29.—A one hundred mile motor boat race from St. Paul to Red Wing, Minn., and return is to be raced here August 9th for a cup put up by the St. Paul Motorboat club. The cup is a challenge trophy to be raced for once a year, the winning boat to hold it until the next year. Any boat winning the trophy three consecutive years wins the cup permanently. A number of entries already have been received.

Race Will Be Held Sept. 10.

New York, July 29.—September 10th now has been definitely fixed as the date of the International motorboat race, according to a cable message received today by Commodore S. H. H. McVie of the Motor Boat Club of America from the Royal Motor Yacht club.

DETROIT MAN ATTEMPTS TO BREAK LONG DISTANCE JOY RIDE RECORD

Chauffeur Is Apprehended With Employer's Car as He Stops in Kansas City for Tires.

Kansas City, July 29.—William Campbell, chauffeur for Abraham Green of Detroit, Mich., was arrested here tonight charged with having stolen his employer's motor car which he had driven through all the principal cities of Ohio, Indiana, Illinois, Iowa and Missouri before he was apprehended here.

"I was after the long distance joy ride record held by Ralph Rayner of this city who ran a stolen car from here to the Atlantic coast," Campbell said, "and I would have beaten him if the tires had not given out."

RAILROAD MEN WILL BE CALLED OUT IF DEMANDS ARE NOT MET

Officials of Locomotive Engineers and Switchmen Will Call Strike if Demands Are Ignored.

Chicago, July 29.—Officials of the Locomotive Engineers and Switchmen's organizations have threatened to call out 700 men employed by the Belt Railroad and Western Chicago and the Chicago and Western Indiana railroad tomorrow if the roads do not meet their demands for shorter hours and a wage increase.

Designers in those ports. Rear-Admiral Cowles, commanding the Pacific squadron reported that he had observed an airplane flying over the Gulf of Mexico, evidently trying to drop a bomb on the Mexican federal Gunboat Tampico. However, he did not verify unofficial reports that the Tampico had been destroyed by the aeronaut.

DEMANDS THAT McADOO PUBLISH INFORMATION

SHOULD MAKE PUBLIC INFORMATION ON WHICH CHARGE IS BASED

Senator Weeks Declares That if the Evidence Is Not Produced It Will Be Construed as Another Step in the Propaganda to Discredit Any One Who Opposes It.

WASHINGTON, July 29.—Senator Weeks of Massachusetts, a Republican member of the senate committee on banking and currency, in a statement today attacked Secretary McAdoo for his charge that two per cent bonds had been issued which he based the charge.

"If he does not furnish the public with this evidence and do so at once," Senator Weeks said, "it will be construed and properly so, as another step in the propaganda which this administration stands for that is to discredit any one who opposes it by attaching sinister, malign and interested reasons for so doing."

"Unless the secretary has the evidence," his declaration is the most abominable attempt to influence congressional action which has yet come from this administration or as far as I know from any other, and it looks like a concerted drive on the part of the high officials of the administration to influence the judgment and opinions of the business community."

The Democrats of the house banking and currency committee struggled along today with the consideration of the administration bill. Representative Bulkeley of Ohio, continued his attack on the board powers conferred by the bill on the proposed federal reserve board. By a vote of 8 to 3 the committee declined to adopt an amendment striking out the section of the bill allowing the board to suspend the reserve requirements of the bill for periods of thirty days and to renew such suspension for fifteen day periods.

Representative Bulkeley also proposed an amendment providing for a graduated tax on banks as a penalty for allowing the reserve to fall below the required percentage but this, too, was rejected.

POLICE HAVE DIFFICULT TIME WITH SUFFRAGETTE HUNGER STRIKER

Woman Refuses To Leave Prison Unless Unconditionally Released—Is Finally Taken To Kensington Infirmary.

London, July 29.—A curious scene was witnessed in the west end of London tonight. The authorities of Holloway jail desired to liberate under the cat and mouse act a suffragette hunger striker Mrs. Mary Wyan. The woman refused to leave the prison unless she was unconditionally liberated, whereupon she was sent in a taxicab in charge of wardress to a west end nursery home. Arriving there she absolutely refused to enter the home and sat outside from afternoon until midnight, surrounded by a small crowd of sympathizers and curious on-lookers.

Despite all persuasion of the police, who were warned by a doctor that Mrs. Wyan was in a very dangerous condition she still refused to move until she declared "the government undertook its responsibilities." Finding their efforts unavailing the police brought an ambulance and the nursing home at midnight and removed Mrs. Wyan to a police station and thence to the Kensington infirmary.

Sturgeon Bay, Wis., July 29.—A message supposed to have been written by Captain Charles Nelson of the Rouse Simmons, the "Christmas ship" which went down with all aboard in Lake Michigan last November, was today found in a bottle picked up on the beach. The message is dated November 23 and reads as follows:

"These lines were written at 10:30 p. m. Schooner Rouse Simmons ready to go down about twenty miles southeast of Twin River point between fifteen and twenty miles off shore. All hands lashed to one line. Good-bye."

"Captain Charles Nelson."

BEGIN EXAMINATION OF MULHALL TODAY

Lobbyist Practically Finishes His Identification of Letters He Wrote

QUESTIONS PREPARED

Mulhall Will Have to Answer Many Queries Before He Quits the Witness Chair

SWEARS McDERMOTT A FORGER

WASHINGTON, July 29.—Martin M. Mulhall today practically finished his identification of letters he wrote and received in the ten years he claims to have been the lobbyist for the National Association of Manufacturers. Tomorrow the senate investigation committee will turn its attention to an examination of Mulhall and attorneys for the association and for the American Federation of Labor also involved in the correspondence will begin the cross-examination of the witness.

Robert McCarter, counsel for the association, has about 250 questions he wishes to ask the witness, Attorney Jackson H. Ralston for the Federation of Labor has prepared about 100 more and no one knows how many separate queries members of the committee will submit to Mulhall before he is allowed to quit the witness chair in the senate wing of the capitol and face the special house committee that is eagerly waiting his appearance across the rotunda.

Called Liar and Blackmailer.

Mulhall's last day as an identifier of letters proved the most exciting of his two weeks on the stand. He was called a liar and a blackmailer by Majority Leader Underwood of the house of representatives and he swore that he had tried to get Chairman Wilson of the labor committee interested in the story he is now telling and that Speaker Clark and Minority Leader Mann of the house had turned down an opportunity to conduct an investigation of his activities. The speaker and Mr. Mann, he said, had been approached on this subject by Representative James McDermott of Illinois.

"Neither Mr. McDermott nor anybody else ever showed me the Mulhall letters and papers," Speaker Clark said in a statement issued late today. "Neither Mr. McDermott nor anybody else ever spoke to me about them. I never knew that Mulhall had any letters or papers until I saw in a newspaper that he had sold them to a New York paper."

Swears to Forged Check.

Mulhall brought the day to a climax by swearing that McDermott had acknowledged to him that he had signed Mulhall's name to a check for \$250.

Mulhall made this statement when he was questioned about a trip to Chicago in April, 1912, to help McDermott in the primaries. He said that Harold F. McCormick had promised to contribute \$250 to the McDermott campaign. He said McCormick made out a check to him for this amount but that he did not receive it until after he returned to Baltimore. He cashed this check in Baltimore and later the bank there and the one in Chicago on which it was drawn informed him that a duplicate bearing his signature had been honored also. He told the committee he never knew what had happened until McDermott told him.

Senator Cummins made an unavailing effort to keep the discussion of the check out of the record. He said the question of whether McDermott had signed Mulhall's name was not pertinent to the committee's investigation but Mulhall's testimony and the correspondence on the matter were allowed to go in. A letter read today showed that Mulhall took the \$250 given by McCormick and used it himself, although he said McCormick had given it for the McDermott campaign.

POLICE FIND NO TRACE OF HOLSTEIN BOYS' MURDERERS

Search Is Being Made for Two Negroes, One of Whom Is Said to Have Fled to Rock Island.

Chicago, July 29.—Except for finger prints found on pieces of soiled paper, a photograph bearing the picture of a baby and a half dug grave, the police to night were without any definite clues to the murder of Bernice Holstein, the 14 year old boy whose body was found Monday in a clump of bushes in Morgan Park, a suburb. Search was begun, however, for two negroes, one of whom was said to have fled to Rock Island, Ill. The negroes were declared to have been seen near the spot in Morgan Park where the boy's body was found.

AFFIRMS AMENDMENT.

Oklahoma City, July 29.—The supreme court today affirmed the grandfather clause amendment to the state constitution which disfranchises the negro under certain conditions. Notice of an appeal to the United States supreme court has been given.

CONFERENCE SETTLES STATUS OF NEW ALBANIA

PRINCE WILL BE NOMINATED TO RULE OVER THE NEW STATE

Ambassadorial Conference in London Does Nothing Officially Towards Coercing Turkey—Greeks Are Still Operating by Land and Sea.

LONDON, July 29.—The ambassadorial conference today settled the status of New Albania. A prince will be nominated six months hence to rule over the new state. In the meantime a commission of control, composed of one representative of each power will organize the administration with the aid of a Swedish officer of the gendarmerie.

The conference has done nothing officially in the direction of coercing Turkey and as the strongest feeling is manifested at indignation meetings throughout India against any attempt to drive the Turks from Adrianople it is not likely that the Greek government would be anxious to initiate such coercion.

The Greeks are still operating by sea and by land. The Bulgarians, who were defeated recently at Kroesna Pass turned the pursuing Greeks to the northwest of Djuma. Furious fighting occurred, the reinforced Bulgarians making a desperate attempt to recapture their lost positions.

The battle lasted throughout Sunday, during which the Greeks thrice were ejected at the point of the bayonet from one position. The fighting took place over an extended front and both sides suffered heavily. According to a Greek account of the battle neither side had gained a decisive advantage at nightfall Sunday, but under the cover of darkness the shaken Bulgarians retired after abandoning and setting fire to the town of Djuma which later the Greeks occupied.

A correspondent with the Greeks says that their losses in the previous battle for possession for the Kroesna defiles were 2500 men killed and wounded. The losses in Sunday's battle are not given. The correspondent adds that except for rear guard action the Bulgarians can make no further stand this side of Dubniza, 22 miles south of Sofia and that now not a single Bulgarian soldier remains in Macedonia except as prisoners.

The Greek fleet has occupied the ports of Lagos, Maronia and Makri on the coast of Thrace and a Greek force has captured the town of Gumnirjina, twelve miles inland from the Aegean sea and about 75 miles southwest of Adrianople.

"UNCLE JOE" CANNON UNINJURED WHEN AUTO LEAPS OFF EMBANKMENT

Chauffeur Misses Brake and Car Plunges Ten Feet to Shallow Lake Below.

Danville, Ill., July 29.—Not for a second did former Speaker Joseph G. Cannon relinquish his grip on the big black stogie he was smoking when his automobile plunged down a steep bank and lit right side up in a small lake in Spring Hill cemetery this evening.

"Uncle Joe" was out riding with his daughter, Mrs. E. X. Lesure when upon arriving at a sharp bend in the roadway along the lake bank, his chauffeur missed the brake with his foot and the car leaped off the ten foot bank. The water was shallow and the passengers easily waded to the shore. Neither Mr. Cannon nor his daughter suffered any injury.

SOUTHERNERS ARE REPAIRING DEFECTS

PROFIT BY THEIR MISTAKES AND STORE AMMUNITION

Many Japanese Officers May Join Canton Army Which Consists of Over 40,000 Men—Northern Army Reinforcements Arrive in Yang-Tse River.

LONDON, July 29.—"The southerners, profiting by their earlier mistakes are repairing defects and getting in large supplies of ammunition," the Daily Telegraph's Peking correspondent says. "A long and wearisome war seems certain. I understand a hundred Japanese officers will join the Canton army which consists of 4,000 good troops."

The Daily Telegraph Shanghai correspondent reports the native city there on fire in three places as a result of the canonading of the arsenal. The dispatch bears no date and probably refers to Monday's fighting.

The correspondent had an interview with Dr. Wu-Ting-Fang, former Chinese minister to Washington, who thinks President Yuan S' Kai's uncompromising policy dangerous, but blames both sides in the warfare for rejecting proposals for a compromise.

In another interview with the correspondent Dr. Sun Yat Sen declared that he would leave southward in a few days on business. He was quite unconcerned with the view to marching to the arsenal here.

Practically all the civilians have left Wu-Sung for Shanghai, excepting a bombardment, which up to this time has been unexpectedly delayed.

HOTTEST WEATHER OF THE SUMMER VISITS CHICAGO

Heat Wave Was Fortunately Relieved by Brisk Winds—Only a Few Prostrations Are Reported in Big City.

Chicago, July 29.—The hottest weather of the summer visited Chicago today. On top of the federal building where the weather bureau is located is the coolest spot in the downtown district, the temperature was 99 degrees, but in other sections it was three or four degrees hotter than that. The heat wave, however, was relieved by brisk winds and prostrations which was caused by the hot spell of ten days in the early part of the summer. Only a few prostrations were reported. The forecast was for continued warm weather.

At Peoria, Ill., a mark of 104 was reached, the highest in the history of the weather bureau there. Galesburg, Ill., also reported extraordinarily high temperature, 104. There were several prostrations at Galesburg, one victim, John A. Miley a teamster, may die.

Some Iowa marks were: Des Moines, 101; Burlington, 110; Davenport, 101; Dubuque, 99.

Springfield, Ill., July 30.—This city, which the government shows was the hottest place on the map of the United States with the government thermometer touching 103, suffered from the heat. Although much sickness was reported there were no serious prostrations. Business was crippled.

PROSTRATIONS AT CLEVELAND.

Cleveland, O., July 29.—The death of one adult and twelve babies from heat and three prostrations which may prove fatal were reported here today. The maximum temperature, official, was 88 degrees.

GOOD BREEZE BRINGS RELIEF.

Quincy, Ill., July 29.—Quincy suffered its hottest day since Aug. 5, 1911, today when the government thermometer read 105 degrees.

A good breeze, although hot, gave protection against prostrations with only one being reported.

TWO SHARP EARTHQUAKE SHOCKS SHAKE MT. RANIER

Earth Shocks Cover An Area of More than a Hundred Square Miles and Cause Great Alarm.

Tacoma, Wash., July 29.—Two sharp earthquake shocks covering an area of more than a hundred square miles shook Mt. Ranier to day, rocked the gate houses of the immense concrete structure of Tacoma's two Grand 30 miles south of Tacoma and caused alarm in hundreds of homes. The disturbance lasted about half minute and was most strongly felt at LaGrande.

Seattle, Wash., July 29.—No record of the earthquake reported from Mt. Ranier appears in the seismograph of the University of Washington. University scientists are puzzled.

WILL NOT HASTEN TARIFF FOR CURRENCY

Republican Senators Do Not Propose to Hasten Action On Tariff Bill

IN NO MOOD TO BEFORCED

There Will Be No Haste Made Unless an Early Adjournment Should Be an Inducement

LITTLE PROGRESS IS MADE

WASHINGTON, July 29.—Republican senators made it clear today that they do not propose to hasten consideration of the tariff bill if the president and Democratic leaders of congress are going to insist upon the enactment of currency legislation at this session.

Senator Gallinger declared that the Republicans were in no temper to be forced and Senator Lodge insisted that assurances of a prolonged hot summer session would not be conducive to hastening tariff action.

Discussion on this point arose when Senator Gallinger sought information as to the intent of the Democrats.

Senator Simmons said he hoped that the Republicans were not making threats to purposely delay passage of the tariff which all business interests wanted settled speedily. Republican senators assured him that they were making no threats but that it was bound to follow that there would be no haste with the tariff unless an early adjournment should be the inducement therefore. Senator Gallinger said that, reading in the morning papers every day that the president would insist upon holding congress here to enact currency legislation would not speed up action on the tariff.

Senator Lodge added that it was most unwise to demand action on such important legislation as the currency of a "tired out congress."

Progressive Republicans disclaimed any intention to delay voting on the tariff unnecessarily, despite what else might be in store. Senator Borah declaring that statements to the contrary from other sources did not express the view of all on the minority side.

Following an attack on the bill by Senator Sterling of South Dakota, little progress was made in consideration of the earthenware schedule, several hours being occupied in discussing the rates on pumice stone and fluorispar.

GUNBOAT TAMPICO IS NOT DESTROYED BY AVIATOR'S BOMBS

Aviator Masson Dropped Four Bombs Around the Gunboat, but Failed to Destroy the Craft.

At Fort Above Guaymas, Mex., July 28.—Didier Masson, from his big bi-plane, dropped bombs this afternoon around the gunboat Tampico, lying in Guaymas harbor.

Four bombs were dropped, one striking within a few feet of the federal gunboat. This probably gave rise to the report that the boat had been struck.

The French aviator operated under heavy fire, as he circled over the town and bay, but returned unharmed.

The Southern Pacific of Mexico is being operated by the insurgents as far as San Blas.

The Cockin family reside about three-quarters of a mile east of Alexander, and the boy was riding on a pony; he was emerging from the driveway out on to the road just as the Overland car of William Barr Brown, Jr., was going by. The car just grazed the back leg of the pony and the boy was thrown clear of the animal, but fortunately landed on the ground in such a manner that he escaped injury. The damage to the car was a bent fender.

Among the autolists in the city Tuesday were M. M. Kirkman of Chicago, the retired vice president of the Northwestern railway, and J. T. Kirkman of Chicago, a retired major in the United States army. Mr. Kirkman stated that at one time he was a student of Illinois college. LITERBERRY.

Grandma Coffman and daughter of Jacksonville visited with the Parb family last Tuesday and Wednesday.

Mrs. Durrell Crum and Mrs. J. M. Litter attended the Chautauqua at Havana last Sunday and Monday.

Mrs. Richard Boden of St. Louis visited with Miss Annabel Crum a few days last week.

Miss Verla Holt of Lone Oak, Cracker's Bend, visited part of the week at Sunshine cottage.

We drove down to the Bend Sunday afternoon in company with Mr. and Mrs. Joe Litter and little Miss Mildred Underbrink to see what would be doing at the Sunday school convention at Grace Chapel. Miss Mildred was to have sang a solo, but her Aunt May is the only one who can play the accompaniment to her song, and she went to the Chautauqua leaving Mildred without a leader.

Of course this was a great disappointment to the large audience, but like all dark clouds, there was a beautiful, bright silver lining and all disappointments were forgotten long before the last song was sung.

We found Precinct Vice W. J. Houston in charge of affairs and he carried them through as though he had been doing that kind of work for years.

The singing was fine and the way Miss M. E. Ginder read the scripture lesson and offered a sincere, fervent and well worded prayer, suitable for the occasion, proves to all that the Bend is able to hold her own in all good works. Mr. Watt gave a good talk on the boy problem, which was well received. Some people have accused our good friend, Arthur Swain, of being slow, but they never could look him in the fact again without blushing had they been present and hear Brother Swain's up-to-date topic, "The Automobile vs. the Sunday School." He handled his subject admirably and brought the house down with his quaint but truthful illustrations. The winning horse was Rev. Mr. Spoons. He struck the track in full action and carried the congregation with him. He certainly gave us some facts in a manner and language all could understand. The most curious feature of the whole thing was the way in which the audience went wild over the singing executed by eight young men, all of the Bend. These young men are all good looking fellows, but they make no pretensions to music, but their singing was very enjoyable and we believe the great praise they received was as much for their stand in a good cause as for their musical effort. Eight bright young men facing the world in a cause that is growing day by day, and what a force they can be for right. The Bend is certainly has a right to be proud of her children, big and little. We beg pardon of the Bend correspondent for dipping into affairs out of our jurisdiction, but feel that we still have a deep interest in the affairs of our people, and we will enjoy reading a full report of the proceeding at the chapel Sunday from first hands.

COMMISSIONERS CONFER ABOUT HARD ROADS.

Morgan and Scott County Authorities
Discuss Best Route.

Morgan and Scott county commissioners held a joint meeting Tuesday in the court house to talk over the best route to be used through the two counties for the first hard roads construction under the new state aid law. Scott county was represented by C. L. Taylor, Deputy County Clerk J. W. Woodall and B. O. Renner and the Morgan county commissioners J. C. McFillen, R. R. Coultas and W. F. Roegge. There are two direct routes out of Jacksonville, one due west going by the mound and following the old state road and the other going south by Diamond Grove cemetery and thence direct west through Riggston to the Illinois river, the road known as the Phillips Ferry. It would be impossible to make the route so as to touch Winchester as that town is too far to the south. The plan worked upon by the commissioners is to seek a highway which will be of the greatest service to the greatest number of people. The qualifications for county road superintendents were also discussed and various matters of interest in public highways were presented. As the road will extend on through Pike county it is probable that a meeting of the Scott county and Pike county commissioners will be held in a short time.

Take an afternoon off Thursday and attend the big matinee at Driving park.

REVIVAL AT EBENEZER.

Revival meetings are being held at Ebenezer church each evening, and in spite of the hot weather good crowds have been attending. The meetings were opened Sunday night the sermon being preached by the pastor, Rev. H. F. Cusic, who is conducting all of the services, and during the meetings he will be assisted by the pastors of the city. Meetings will be held every night at 8 o'clock and will continue two weeks at least.

People are coming for miles to see Thursday's fast races. You ought to go one mile to see them.

FUNERAL NOTICE.

Funeral services for Mrs. W. W. Holliday will be held from the late residence, 507 North Church street, this afternoon at 2 o'clock in charge of Rev. W. H. Cannon, assisted by Rev. Clyde Darsie, pastor of Central Christian church. Interment will be made in Diamond Grove cemetery.

If you enjoy exciting horse races your place is at the Driving park tomorrow afternoon.

TO ASSIST IN WORK.

Lieutenant Kranz of Chicago No. 33 corps of the Salvation Army comes to Jacksonville on Wednesday to assist in the work. Lieutenant Legg, who has been assisting Captain Linden, has been promoted to captain and placed in charge of the Salvation Army work here.

WILL CONFER ON FRANCHISE.

The city officials will go to Springfield today to meet Mr. Chubbuck of the Illinois Traction system and confer about the terms of the proposed street railway franchise.

People are coming for miles to see Thursday's fast races. You ought to go one mile to see them.

She insisted she was stolen by H. M. McCord and a half dozen confederates and that they forced her through threats to give out the statement that her husband had attacked her with a knife and that she went away with McCord because he interfered and caved her life.

Mrs. Dean was brought here and placed in the county jail tonight. As soon as her husband entered the cell she rushed into his arms, embraced and kissed him. The young farmer was overjoyed by the reconciliation with his wife.

WOOD PULP AND PAPER WILL NOT BE ADMITTED FREE FROM RUSSIA

Secretary McAdoo Makes the Announcement as Treaty Between U. S. and Russia Has Been Abrogated.

Washington, July 29.—Secretary McAdoo today announced that wood pulp and paper would not be admitted free of duty from Russia under most favored nation treatment, the treaty of commerce and navigation between the United States and Russia having been abrogated.

The customs court recently decided that European countries with favored nations treaties with the United States were entitled to free wood pulp and paper because that provision was granted to Canada. The treasury department has accepted that principle but for time being will apply it only to Norway, Austria-Hungary and Germany, which aside from Russia were the only countries directly involved in the decision.

SECRETARY DANIELS AND WIFE ACCOMPLISH PURPOSE OF TOUR

Secretary of the Navy Completes Tour of Pacific Coast Naval Station.

Spokane, Wash., July 29.—When Secretary of the Navy and Mrs. Daniels left late tonight for east bulky note books and documents showed that the secretary had accomplished the purpose of his tour of Pacific naval stations and a fading wreath in a Spokane cemetery told of the aim which brought Mrs. Daniels from her Washington home.

The wreath stands against the monument of Ensign John R. Monaghan where Mrs. Daniels placed it today, in memory of the bravery of the young officer who was her brother's classmate.

To do this, the secretary said, was the main object of her trip across the continent, covering thousands of miles.

Ensign Monaghan was killed in the San Juan hurricane of 1899 while attempting to rescue a fellow officer.

CAMINETTI DIGGS CASE IS SUBJECT OF FIVE HOUR DEBATE

Debate on White Slave Cases Will be Resumed When House Meets Friday.

Washington, July 29.—Vigorous criticism and determined defense of the attitude of Attorney General McReynolds and the administration in the Caminetti-Diggs white slave cases marked five hours of political debate in the house today. Representative Kahn of California declared that "insidious political influence" had something to do with the postponement of the cases in California and Chairman Clayton of the house judiciary committee, in a speech in defense of the attorney general, said that the attacks growing out of the Caminetti case were a part of a general "conspiracy of the special interest to discredit an honest public official."

Chairman Clayton declared that the special interests were instigating the attacks on the attorney general because of his "fearless prosecution of all offenders high and low."

Republicans, Progressives and Democrats generally joined in the debate which will be resumed when the house meets on Friday.

SOME OFF-SIDE CHUTES

Stovall's lowly Browns were the "dandy" boys who put a crimp in Joe Boehling's laudable aspiration. A pass, a single and a home run, all in the first inning of the game at Washington on Monday was the Senatorial phenom's Waterloo—his first losing game of the twelve in which he has officiated this season.

Barney Fury, who looked after Jack Johnson's training for the Jeffries fight, report has it, will manage Sam Langford's boxing affairs in the future. The Boston tar baby arrived in Chicago yesterday from California, where he has been barred from taking part in any of the boxing contests on a subterfuge that he is a prize fighter and not a boxer. He is matched to box an unknown in New York next month.

Marty O'Toole, who recently underwent an operation in Pittsburgh, is convalescing, and will start Friday with a gradual course of exercise.

Charley White is "aching" for an opportunity to meet Leach Cross or Johnny Dundee at Butte, Mont., on August 11. His aching will suddenly cease if he puts his John Henry to a contract to meet Dundee, and quit press agenting over a division of the spoils.

Garry Hermann has taken issue with the American association and its president in re. the slide to first rule now in force in that organization. He quotes the law to bear him out in his contention: "A player is allowed to reach any base by running, jumping or in any other manner, as long as he remains in the lines prescribed." The chairman of the National Commission declares the rule, preposterous and also says it will not stand.

Comiskey arrived in Minneapolis on Monday and is the guest of the Cantillon brothers. Immediately the news was flashed that the White Sox owner was negotiating for Ralph C. Stock, the artist "Redding Joe" Cantillon coyly announces that his "find" is not for sale.

"Biddy" Phelan was guilty of working the hidden ball gag on Mann of the Braves in the game with the Cubs on Monday.

Fire Sunday night destroyed the plant of the Sioux City team of the Western league. With the grand stand the entire equipment of the club is a total loss, amounting to \$60,000. Immediately after the fire the city council drafted a special ordinance, aimed to compel the owners to rebuild with nothing but fireproof material.

Oscar Vitt, Detroit's second baseman, is lying critically ill in the Straits City with grip. While at present he is a very sick man, his many admirers are not without hope that the danger point has been passed.

Connie Mack has added another collegian to his magnificent galaxy of high brows. George Brickley, the brother of Charles Brickley of Harvard football fame, has joined the Athletics, and will be given a thorough try-out.

The Coast league is endeavoring to shut the gates in all of the cities in their organization carrying more than one team. The ruling of Coast President Baum, is aimed at Portland, Ore., where there are two clubs—the Coast league and the Northwestern league teams. Judge W. W. McCredie, owner of the two Portland teams has given notice of an appeal to the National commission.

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-
posit. It was a very strong recom-
mendation, indicating character and
persistence, which finally secured for
him a good position.

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS
MARKET MANIFESTS
REACTIONARY TENDENCY
UNDERTONE OF OPERATIONS
HEAVY AND TRADING IS
LIGHTER.
Indications Are That Rise Has Come
to a Halt—Little Interest Is At-
tached to Second Quarterly Report
of Steel Corporation.
(By Associated Press)
New York, July 29.—A reaction-
ary tendency was manifested by the
stock market today—almost the
first in a fortnight. Trading was
lighter than on the previous day.
Not only was the undertone of to-
day's operations heavy for the most
part but there were indications as
well that the rise had come to a
halt, for a time at least. During the
frequent periods of stagnation in
the afternoon neither bulls nor bears
seemed disposed to take the initia-
tive and such changes as occurred
were trivial. Apart from less encour-
aging advices respecting crop and
some resentment on the part of
bankers to the statement of the sec-
retary of the treasury in the matter
of the government 2 per cent bonds,
the day was devoid of news bearing
upon the market.
Less than the usual interest at-
tached to the second quarterly report
of the steel corporation issued after
the market's close. The statement
showed total earnings of \$41,219,
\$13, compared with \$34,426,801 the
preceding quarter and \$25,102,266
for the corresponding quarter of last
year.

PROBABLE SHORTAGE
BOOSTS CORN PRICE
SPECULATIVE TRADE IS BIGGEST
IN MANY MONTHS.
Chicago, July 29.—Alarm that the
yield of corn this season would fall
short half a billion bushels of what
had been expected swept prices to-
day skyward. Although the top-
most level reached was not fully
held, the market closed excited at
a net advance of 1 1/2c to 2c.
Wheat showed a gain of 5c to 7c
and oats a rise of 5c to 1 1/2c. Pro-
visions at the finish varied from 5c
off to an upturn of 15c.
Speculative trade in corn was the
biggest in many months. The coun-
try especially ought to see a scale not
often paralleled. Damage already
great from heat and drought and
acutely threatening to become worse
with the crop now at about the most
critical period, had aroused wide-
spread apprehension. This feeling
manifested itself from the start to-
day and took on wildness as the
hours passed with no sign of any re-
action in prices.
Estimates made by leading experts
indicated that the total corn crop
might be 2,700,000,000 bushels in-
stead of 3,000,000,000 which had
not long ago been expected by many
persons. Other authorities said the
present prospect was for 2,675,000,
000 bushels with chances of the
amount being cut later to 2,500,000,
000 bushels. Such ideas were what
led to the climax of buying on a mar-

EDWARDSVILLE'S FINE SCHOOL BUILDING

ERECTED IN 1910 AT COST AC-
COUNTED AS VERY REASON-
ABLE.

Completed Structure Represents Ex-
penditure of Less Than \$64,000—
Jacksonville School and City Offi-
cials Inspected It With Interest—
Gained Ideas for Proposed Jack-
sonville Building.

Four members of the board of education, three city commissioners, the architect for the board, the principal of the high school and several private citizens went to Edwarsville yesterday to inspect the high school and eighth grade building there. It was erected in 1910 at a cost of less than \$64,000.

Every one in the party agreed that the Edwarsville people have a fine building and that they used a

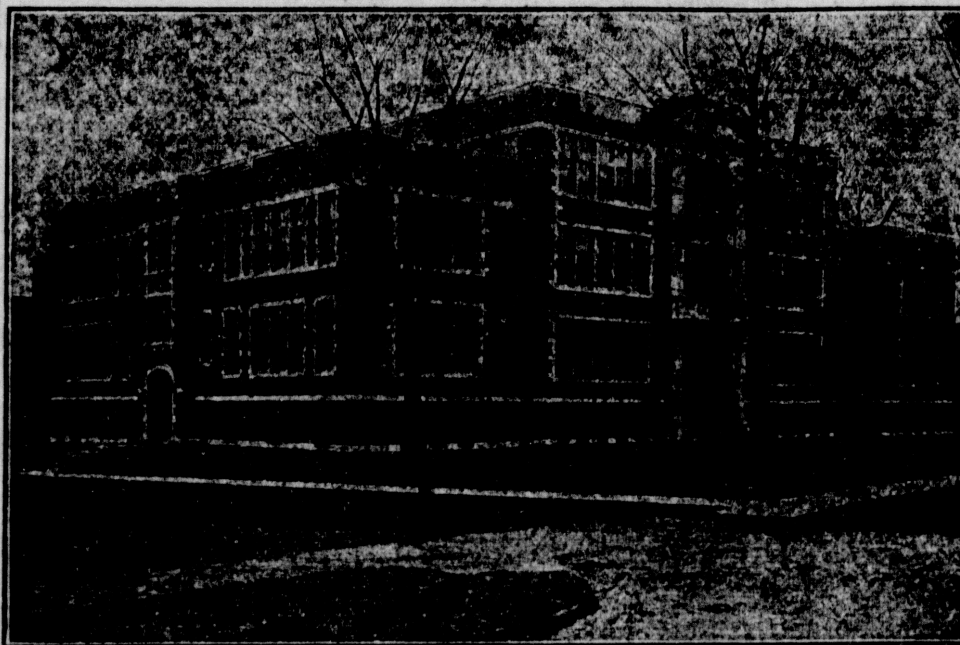

expensive building than our plans now call for.

Made Journey on Time.

The party left over the Burlington at 8:55 on time, and arrived at Girard just as a Traction company limited train came in sight. A little sprinting was done and then the party was on board the traction line and reached Edwarsville at 9:52, just the scheduled time. Mr. Rogerson had the address of Thomas Williamson, president of the board of education, and Mr. Williamson extended a most hearty welcome and soon rounded up other members of the board of education and each one did his utmost to show every detail of the building.

Members of the board present beside Mr. Williamson were L. D. Lawlin, general manager of the Nelson & Sons plant, and who was chairman of the building committee when the building was erected; J. F. Ammann and F. C. Ford, superintendent of the school; F. C. Gillham also extended courtesies as did Olin Judd.

Main Points About the Building.
The building faces to the east and in general dimensions is 90 by 150 feet. It is constructed of mottled paving blocks made in Edwarsville.

EDWARDSVILLE HIGH SCHOOL AND EIGHTH GRADE BUILDING.
It was erected in 1910 at a cost of less than \$64,000, including all furnishings.

lot of good sense in its design and construction, securing an excellent structure at a comparatively low cost. Every one in the party, too, agreed that the expedition from Jacksonville was well worth the time and money expended in the securing of ideas of school building which the visit meant. The board members have been studying school architecture and were glad to see a completed modern building embodying many of the ideas that they have in mind. The city commissioners now feel better qualified to vote upon the amount of money that the board needs for building purposes.

The party included E. E. Bavington, J. E. Hall, George S. Rogerson and E. E. Wells, members of the board of education; Commissioners J. F. Brennan, Louis H. Engel and William Newman; Architect C. W. Buckingham, W. A. Gore principal of the high school; Joseph De Goveia, Bernard Gause and a Journal representative. Part of the men returned at 5:08 on the Alton, and the others at 9 o'clock.

Here are the opinions members of the delegation gave after inspecting the Edwarsville building:

Visitors Express Opinions.

William Newman—It is a splendid building and I believe both board members and commissioners have learned a great deal of value to them by this visit of inspection.

E. E. Wells—It is really a wonder to me how so excellent a building could be erected at the price. It was certainly well planned and well executed.

J. F. Brennan—It is an exceptionally good building and I can see how it could be changed, without added expense to suit the needs in Jacksonville.

Joseph De Goveia—It is a plain building and in all essential things well constructed. It was erected at a low price, but building costs in Edwarsville and Jacksonville are not vastly different. I believe that 10 per cent addition would cover the cost between erection in 1910 and 1913.

E. E. Bavington—It is well worth while inspecting such a building and the cost figures come almost as a surprise when one figures what has been secured for the money.

George S. Rogerson—To my mind the building is much like what we need. The general plan is plain and is sensible in the extreme. It has been worth our time to see what \$64,000 has accomplished here.

Bernard Gause—I knew something about this building because I looked over the plans and figured on the plumbing. It is a good building and they have something to show for every dollar paid for its construction.

John E. Hall—I have been much interested in looking over this building and I have tried to examine every detail. The cost was moderate, but the building is certainly complete and well equipped.

L. H. Engel—The arrangement of the building certainly seems to be all that could be desired. Such a building with perhaps some modifications, would not come far from meeting our Jacksonville needs.

W. A. Gore—They have secured a great deal for their money in this building and it is well planned. I was much interested, too, in inspecting recently the high school building at Marion. It cost even something less than this building and is the best I have seen.

C. W. Buckingham—I have greatly enjoyed going over this building and find much to admire about it. I have made it a point to examine every part of the structure with great care and it is an excellent building. When the board so desires I can change or revise the plans for a less

but which very much resemble the Alton brick used in the construction of Harker hall at the Woman's college. They are laid in black mortar and the building has a basement or first story, two complete stories above and a third in part.

The arrangements are as follows: First floor—Gymnasium, boiler room, boys' toilet, boys' locker room, girls' toilet, domestic science and manual training rooms, girls' play or lunch room, and wide corridors.

Second floor—Four cloak rooms, six class rooms, grade assembly room, superintendent's offices, corridors, and closets.

Third floor—Boys toilet and cloak rooms, girls toilet and cloak rooms, teachers' retiring room, six recitation rooms, library, principal's offices, spacious assembly room, stage, etc.

Fourth floor—Biology room, chemistry room, and another apartment for lectures.

This building was erected three years ago, that is in 1910. The architect was T. C. Kistner and the contractor was Joseph Kessel. So closely were the original plans followed that when the building was completed the contractor was paid only \$29.00 more than the contract price.

The completed building, with all its furnishings, cost a trifle more than \$63,000. The gymnasium is 69 by 48 feet in dimensions and is completely equipped. The hall seats 312 pupils. More than 450 pupils attend the school.

Building Cost in Detail.

The following figures give itemized costs of the structure:

General contract	\$47,194.00
Extras	316.16
	\$47,510.16
Less allowances	247.20
	\$47,262.96

Electric wiring	708.75
Blackboards	621.77
Hardware	466.87
Concrete steps and walks	162.70
	\$58,273.81
Architect's commission	2,912.69
	\$61,186.50

Program clocks for both buildings \$11.60 |

Electric fixtures, etc. 244.10 |

School desks 950.18 |

Teachers' and Principal's desks 129.00 |

Library and other shelves 53.13 |

Window shades 133.00 |

	\$2,215.20
--	------------

Exterior is Imposing.
The main entrance of the building is from the east, but there are wide approaches from two other directions as well. A pretty hedge of privet lines the walks about the building and spiraea has been used effectively in landscaping the lawn.

The plate glass doors of the main entrance open upon a mosaic floor vestibule and iron steps covered with a patent preparation lead to the second floor. The building is trimmed with Bedford stone and terracotta, the latter wrought into a very handsome and chaste design above the main entrance. The walls of the building are of sand finished plaster. The cold air gravity ventilation system is used in the heating is by the vacuum steam system. Light has been made much of and almost every room has an unusually large number of windows. The sewing room and the superintendent's offices are the only ones which seem to be without all the light desirable. The basement is all concreted and the plumbing which includes shower baths for both boys and girls seems to be the best.

It is likely that if the board of education of Edwarsville were to build over again they would make few changes in their high school and 8th grade building.

LARGE CHEESE MADE IN WISCONSIN FACTORY.

Twenty-Two Thousand Pounds of Milk required for Huge Cheese Weighing a Ton.

They do things on a large scale in Wisconsin if one may judge from the size of the cheese being made by a Plymouth, Wis., factory for Sprague, Warner & Co. of Chicago. A recent issue of the Plymouth Reporter says:

James Mallman of Sheboygan, Wis., who by the way is probably now the leading cheese dealer in the county, has given the cheese factory in this city an order for a number of large cheese, ranging in weight from 300 pounds to 2000 pounds. These cheeses are all uncolored and are for the large wholesale grocery firm of Sprague, Warner & Co. of Chicago.

The cheese which is to weigh a ton will take about 22,000 pounds of milk to produce it, or it will require 11,000 quarts, or about the milk of 500 cows for one day. It will take more milk than is delivered to the Plymouth factory in a day. At 5 cents a quart the milk required in its manufacture is worth \$550.

Mr. Mallman is one of the very oldest cheese buyers in the county. He is a jobber in cheese and handles about \$300,000 worth a year.

AT THE GRAND.

Dave Woods animal actors continue to draw big audiences at the Grand notwithstanding the extreme heat. Last night there were two good audiences and they were thoroughly entertained with the bill put on. The dogs and monkeys give a performance by themselves without a director on the stage and display a vast amount of intelligence. Old and young alike laugh heartily at the pranks the animals play. There will be a matinee and night performance today.

Fred Darr's Sunday school class the "Centenary Club" took supper at the park Tuesday evening. After the bounteous picnic spread, the boys amused themselves by taking pictures and playing games. Those present were: Farrell Dodsworth, Gene Darr, Phillip Darr, Arthur Green, Jesse Baldwin, Frank Ledford, Maurice Patten, Harold Sandberg, Harry Sandberg, Richard Ryer. The chaperones were Fred Darr and Miss Florence Taylor.

Twenty-two members of the Young Hickory club of Brooklyn M. E. church executed a clever surprise on Donald Alkire at his home, Monday night, the occasion being his 12th birthday. A splendid supper was served consisting of baked beans, pork and tomato sauce, hamburger, pickles, marguerites, ice tea, ice cake. After the meal, which was served at 6:30 the boys enjoyed a game of indoor baseball. Master Alkire was given several nice presents which he greatly appreciated. The president of the class is Curley Reeve the teacher, E. J. Johnson and the manager, Hy S. Alkire. The boys are making plans to have a tent at cream, cake, after meal, which was spend the entire week there.

CONSIDER PLANS FOR UNION REVIVAL.

Finance and Executive Committees Hold Meeting at Y. M. C. A.

Plans were discussed and arrangements made for the union meeting in September by the finance and executive committees of the revival Tuesday evening at the Y. M. C. A. E. G. Saye was chosen chairman of the finance committee and Carl Weber, the secretary-treasurer. Instructions were given the secretary-treasurer to confer with the heads of the other committees with a view to forming an estimate of the total cost of the revival. It was also suggested that he write Dr. Rees for suggestions concerning the financial management of the meetings. The executive committee appointed two sub-committees, one consisting of E. M. Vasconcellos and Jerry Cox to look after the seating arrangements and the other, composed of Mr. W. E. Boston and Dr. Rees Browning to see after the lighting.

TO SPEND SUMMER AT OMENA.

Mrs. P. J. Waddell and daughter Frances and mother, Mrs. G. W. Brown, and Misses Alice and Mary Wadsworth and Farrell Crabtree, expect to leave Thursday for Omena, Mich. They will go first to Springfield in Mr. Crabtree's Pierce-Arrow automobile and from there will get a sleeper through to Omena. Mr. and Mrs. Crabtree are already at Omena and expect to remain there a week or two longer. The others will stay the remainder of the summer.

MOVING WAVERLY STATION.

The Burlington has a large force of men changing the station facilities at Waverly. The building was recently moved from the old location to one further east, near the C. P. & St. L. Some remodeling work is now going on and then concrete is to be laid around the structure.

BRIDGE WAS ON FIRE.

A bridge on the Alton over a creek near Jerseyville was on fire Tuesday afternoon when the train due here at 5:08 crossed it. Conductor Watson had the train stopped and the crew applied water with buckets until the flames were extinguished.

BOOSTERS CHANGE HOUR FOR LEAVING.

The Boosters for the Jacksonville chautauqua, who will leave this morning, have changed the hour of departure from 10 o'clock, till 11 o'clock. Indications are that a large crowd will join the excursionists. The program as outlined will be carried out and a colored quartet will be taken along. It is probably that both dinner and supper will be eaten at Murrayville.

CARS OFF TRACK.

Train No. 2, the Alton Limited, which leaves St. Louis about 11 a. m. each day, was wrecked near Brighton in a small way. Two parlor cars left the rails but fortunately no serious injuries resulted.

ORNELLAS PLEADS GUILTY.

Must Pay Fine of \$100 and Spend Ten Days in Jail for Selling Liquor.

Before Judge Brockhouse Tuesday Samuel Ornellas pleaded guilty to a charge of selling liquor in anti-saloon territory and was sentenced to jail for ten days and to pay a fine of \$100 and costs. He is now at the jail in Sheriff Rogers' custody. State's Attorney Tilton with the assistance rendered by Chief of Police Davis had strong evidence against Ornellas and this fact no doubt led to the plea he entered. Judge Brockhouse fixed the penalty first at thirty days, but subsequently changed it to ten days.

The case has attracted more than ordinary attention owing to the fact that several months since a continuance was granted on the ground that the defendant was in ill health and must go to California. He appeared in Jacksonville within a few weeks and later by agreement the order of continuance was set aside.

S. S. CONVENTION

AT MURRAYVILLE.

An interesting precinct Sunday school convention was held in Murrayville M. E. church Sunday. The devotional in the afternoon was led by Miss Thelma Dunniway and J. L. Wyatt made a talk on "The Needs of Murrayville Sunday Schools." Short addresses were also made by J. K. Cunningham, S. Hidden and J. A. Crouse. Music was furnished by the young ladies' quartet composed of Misses Beulah Kitcher, Edna Osborne, Cecil Cunningham and Mildred Wright. The devotional at night was led by Miss Helen Crouse. During the convention J. H. Dial made a splendid address on "Gaining the Young People's Confidence." Mrs. H. B. Daniel's paper was on "What Should the Women do With Their Franchise?" and Mrs. Cora Miskell spoke on "The Primitive Teacher." There was special music at the evening service and among the numbers Miss Beulah Kitcher sang "Whom Having Not Seen I Love." In the election held, Arthur Seymour was re-elected president and Mrs. Cora Miskell, re-elected superintendent.

AFTER ALL, THE CASH BASIS IS THE ONLY PROPER SYSTEM.

Beginning on August 1st, the Model Cash Meat Market, 205 West Morgan street, will conduct its business absolutely on a cash basis. No meat will be left by the delivery boy unless the money is paid him. While the market has always done a cash C. O. D. business, lately the rule has been disregarded a little. Customers have put the boy off for a day or two or several days, until quite a little bill had been run up. As the proprietor has always tried to sell his meat cheaper on account of getting the cash, it is hardly fair to have him take an account.

The market is always willing to do the straight thing with its customers and only the best grade of meat is on hand. The proprietor feels that if more co-operation will be given by the customers better mutual satisfaction will result. After August 1st, then, all orders by phone will be strictly collect on delivery.—Adv.

TUESDAY BREAKS ALL JULY HEAT RECORDS SINCE 1901

Thermometer Rises to 104 Mark—Records for Rainfall so Far This Month Lowest Since 1906.

All heat records for July since 1901 and the records for this summer were broken Tuesday when the mercury mounted to the 104 mark. The precipitation for July is, so far, the driest in July since 1901, only 1.08 inches having fallen to date. The temperature for Tuesday, according to G. H. Hall, weather observer at Alexander, were: Maximum 104, minimum 71. This is two degrees hotter than July 17, when the thermometer registered 102, and four degrees hotter than the highest temperature in June, when the thermometer registered 100 degrees for about three days. On July 20, 1901, the temperature was 100 degrees, July 21, 106, July 22, 109, July 23, 103 and July 24, 105. The normal precipitation for July is about 3 inches, but so far this month only 1.08 inches have fallen. This is the lowest since 1906, according to Mr. Hall's records, the rainfall for the entire month of July of that year being only .36 inches. Last July 2 inches of rain fell, which is one inch below normal.

LETTER FROM MR. STOOPS

Superintendent of Joliet Schools Believes in Keeping Seventh Grade Pupils in Their Own Wards.
Prof. R. O. Stoops, principal of the Joliet schools and whose salary was recently increased to \$3,500 as a mark of appreciation for his services, believes that seventh grade pupils should be kept in their own wards. Mr. Rogerson of the Jacksonville board of education holds that view and in a recent letter to him Prof. Stoops expresses like opinion in the following terms:
"I have just read your views regarding the proposed new schools building and hasten to assure you that you have suggested the exact solution of the problem. A good eight grade building at a moderate cost, has long been needed to relieve the congestion in the high school. It is ideal to have this building adjacent to the high school, but the proper place for the seventh grades is where they have always been and where, I understand, they have ample room.
"I believe the good people of Jacksonville will rally to the support of your plan and that time will prove that your solution is most wise.
"I continue to enjoy my new job and have just returned from attending the N. E. A. at Salt Lake City and a three weeks trip through the Rockies.
"I haven't been anywhere all summer? Then go to the big races Thursday and swell the crowd."

HORSE DASHES INTO REFRIGERATOR CAR.

Animal Becomes Frightened at Locomotive Whistle While at C. & A. Station.
Tuesday morning a horse hitched to the Woods small baggage wagon became frightened and ran into a refrigerator car standing on the C. P. & St. L. tracks, badly lacerating its shoulder. The driver had backed his wagon to the door of the baggage room at the Chicago & Alton passenger station and had just unloaded one of the three trunks he had on the wagon, when the horse became frightened at a train whistle. The animal, which is blind, ran directly across the tracks and collided with the refrigerator car. This is the same horse that ran into a car near the East State street crossing recently.

The singing was fine and the speaking could not have been better. Each speaker was at his best. With such men as Mr. Watt, Mr. Swain and Rev. NINETY SIX PER CENT OF TRAIN MEN VOTE TO CALL STRIKE

Unless Their Demands Can Be Adjusted by the Company a Strike on the S. P. Will Be Called.

San Francisco, July 30.—Ninety-six per cent of the trainmen and conductors employed on the Pacific division of the Southern Pacific system have voted to strike unless their differences with the management over the terms of employment, rating and seniority allowed on the company's electrified lines can be adjusted. The result of the vote which stands 3,816 in favor of striking to 187 against was made public here tonight.

The grand officers and the joint general committee of the Brotherhood of Locomotive Engineers and the Brotherhood of the Firemen and Enginemen feeling that their interests are vitally wrapped up in the same conditions which face the conductors and trainmen are now on their way to San Francisco to take up the problem from their view point and will arrive Friday night or Saturday morning. Southern Pacific officials announced tonight that they will invoke the mediation of the national government through the Newlands act to settle their difficulties with their employees.

SERVES THIRTY FOUR YEARS IN PRISON BUT HATES TO LEAVE

Detroit Man Sentenced When 17 Years Old, in 1879, is Pardoned by Governor.

Thomaston, Maine, July 30.—Samuel D. Haynes of Detroit walked out of the prison gates today after serving thirty-four years for the murder of James L. Robbins, a policeman, at Rockland in 1879. At midnight his sister, Mrs. F. H. Rogers of Detroit, telephoned the prisoner that Governor Haynes had pardoned him.

"The battle is won," Haynes told Warden Ham, "but I hate to leave."

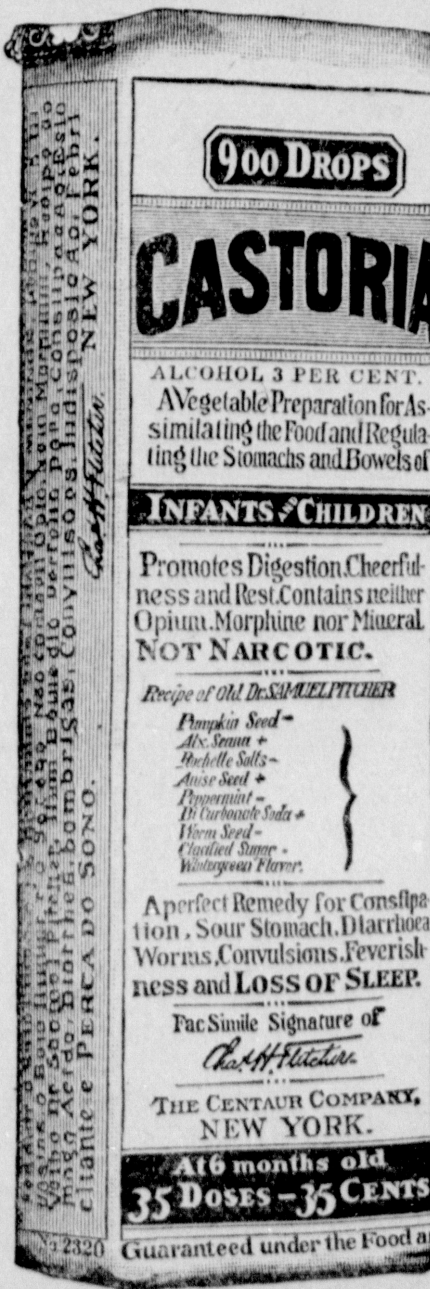

Outside the prison he held reception for a big crowd who knew him as a model prisoner.

"I am willing to forgive and forget," he said. "The prison has been a good thing for me but I feel that I have paid my bill to society. I have been in prison since I was 17 years old but I have spent the better part of my life here trying to be useful. There is no failure in such a life as that."

New Orleans, July 30.—Wireless service to the public will begin Friday at the local station of the United Fruit company. This is the most powerful station in the United States excepting the government station at Arlington. The plant has been in operation since May 15, but up to the present only company business has been handled. While business is handled to all points, the principal stations of the company are in Central and South America. The company maintains a number of stations along the Caribbean coast, the most distant being at Santa Marta, Colombia, 1,800 miles from New Orleans. This station is reached direct in ordinary weather and by relays during storms.

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-
posit. It was a very strong recom-
mendation, indicating character and
perseverance, which finally secured for
him a good position.

SETBACK BECOMES MORE PRONOUNCED

SOME STOCKS SELL 2 TO 4 POINTS UNDER HIGH LEVEL.
Heaviness in U. P. C. P. and I. C.
Reduce Opening Gains to Mere
Fractions—Cut in Dividend of
Illinois Central Explains Weak-

(By Associated Press)
New York, July 30.—The moder-
ate setback recorded by yesterday's
stock market became more pronoun-
ced today when some of the specu-
lative favorites sold 2 to 4 points un-
der their recent high level.

Such improvement was shown
at the opening derived its impulse
almost entirely from the favorable
quarterly statement issued by the
United States steel corporation. Steel
rose 1 1/2 points in London, that mar-
ket following the movement here
with purchases estimated at 25,000
shares. In the local market steel
failed to equal London's high price.

Heaviness in Union Pacific, Canadian
Pacific and Illinois Central reduced
opening gains to mere fractions. The
weakness of Illinois Central was ex-
plained by noon when it became
known that the dividend had been
cut from seven per cent to a five per
cent basis. The stock steadily de-
clined while Pacific, whose income is
directly affected by its holdings of
Illinois Central, was weakest of the
leaders at that time.

In the final hour the market reas-
sumed its present mid-summer dull-
ness.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill-ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (poison) gas. This blood, or blood which lacks the red blood corpuscles, in anemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

DR. PIERCE'S

GOLDEN MEDICAL DISCOVERY

Is a blood cleanser and alterative that—treats the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and vigorous instead of tired, weak and faint. Nowadays you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or tablets by mail, prepaid in \$1.00 per box. Address: J. C. Pierce, M. D., Buffalo, N. Y.

DR. PIERCE'S GREAT 100 PAGE ILLUSTRATED COMMON SENSE MEDICAL ADVISER WILL BE SENT FREE, CLOTH BOUND FOR 21 ONE-CENT STAMPS.

THOUSANDS ATTEND WHITE HALL FISH FRY

FEATURE OF WEDNESDAY PROGRAM WAS RACE MEET.

Program of Four Fast Races Was Given—Event For Benefit of Whiteside Park—Celebration Continues Today.

With an estimated attendance of five thousand people the first day of the annual White Hall fish fry proved one of the most successful in years. An elaborate program of entertainment was furnished for the visitors, there being a carnival company, show troupe, three bands and the feature of the afternoon was a race meet given by the White Hall Driving club at the Grove stockfarm.

For several years it has been the custom of the citizens of White Hall to hold a fish fry for the benefit of some public enterprise and the proceeds of quite a number have been given to the Orphan's home. This year the proceeds will be used for the purpose of building a new entrance to Whiteside Park, in the center of the town, which was donated to White Hall a number of years ago by Mrs. Seth Griswold. Among the attractions for the entertainment of the visitors are the Arnett and Pullen show troupe which is giving a number of plays, Young Brothers Carnival and there are three bands to furnish music for the event, one with each of the show troupes and the White Hall band.

The fish fry will continue to day and this afternoon a baseball game will be played between the Winchester and White Hall teams.

The boosters from Jacksonville arrived at the celebration in the afternoon and the Star Quartet sang a number of selections which were highly appreciated. The Jacksonville people were given a hearty welcome and did quite extensive work in advertising the Educational festival which is to be held next month.

Fully eight hundred people attended the race meeting, the feature attraction of the afternoon, and a fast racing program was given. The program consisted of four events and the 3 minute pace proved to be the most interesting one. Seven horses were entered in this event and the race all the way was between Buck Shirley and Daisy G., the former who was the favorite, winning out.

Five heats were necessary to decide the event and in the second heat the two horses ran neck and neck three quarters around the track, when the favorite by a sudden burst of speed got in the lead and won the heat.

The following were the officials at the matinee: Judge, L. L. Koker of Patterson, A. D. Rollins of Greenfield and George Kinser of White Hall; timers, Guy Richards of Kane, John Boggers of Jacksonville and G. M. Wyatt of Roodhouse; starter, J. T. Farrelley of Carrollton.

DR. WALTER L. TREADWAY
RECEIVES COMMISSION

Necessary Government Papers Come From President Wilson and Physician Will Be Stationed at Ellis Island—Family Will Leave City Today.

Dr. Walter L. Treadway, physician at the Jacksonville State hospital, received his commission from President Wilson Wednesday and today he expected to leave over the Chicago & Alton for Ellis Island, N. Y., where he will be located. As has been previously mentioned, Dr. Treadway is a graduate of Barnes Medical college of St. Louis and has been a physician at the hospital for nearly four years. His work has been of a high order and the recent honors which have come to him attest his ability.

Dr. Treadway's work is under the immigration department and the hospital labor he is to do at Ellis Island is of an important character. This is the place where foreigners are admitted into the country. Statistics show that a large per cent of the men and women in insane hospitals are foreigners and the government is looking very carefully into the mental condition of new comers before they are admitted to American soil. It is believed by this manner that a big reduction can be made in the various hospitals by exercising care at the immigration stations. So the task of Dr. Treadway has before him is an important one, with grave responsibilities.

Many friends in Jacksonville will regret to see Dr. and Mrs. Treadway leave today. They have been splendid citizens and interested in every good work. All will wish them abundance of success in their new surroundings.

MATINEE IS TODAY.

Fast Program of Races is Promised the Public This Afternoon.

Much interest is being manifested in the races of the Jacksonville Driving club which will be held this afternoon, commencing at 1:30 o'clock. Particularly in the free-for-all race and free-for-all trot will the heats be fast and it is expected that a record breaking crowd will be present. At 2 o'clock this morning the committee had a sprinkler on the track and grounds and expect to keep up the sprinkling during the remainder of the night and morning, which will be a welcome news to the many patrons. Jeffries' bait will furnish the music and N. T. Kirby, the expert official starter, will be present. The program of events is printed elsewhere in this paper.

If you enjoy exciting horse races your place is at the Driving park this afternoon.

THOUSANDS ATTENDED
MURRAYVILLE PICNIC

Ball Game, Athletic Events and Horse Show Were Important Features of the Day—Good Prizes Resulted in Spirited Competition—St. Bartholomew's a Strong Church.

The third annual picnic, chicken fry and burgoon given under the auspices of Murrayville Catholic church was another marked success. Thousands of people attended coming from a wide area and the day was one which was thoroughly enjoyed, notwithstanding the extreme heat. McCarty was presented a beautiful ring and addresses were heard from members of the lodge who accompanied the team to Minneapolis, members of the team themselves and others.

John E. Hall, Royal Vizer, introduced Frank Byrns as toastmaster, who with John S. Sheppard constituted the financial committee for the trip. Many expressions of appreciation and thanks were extended the temple by all the members of the drill team, who were called upon by the chairman. Charles Godfrey, who accompanied the team, spoke and others of the votaries who were heard in short talks were J. K. C. Pierson, J. R. Siebert, R. C. Reynolds, J. A. Munson Jr., and Col. Henry L. Hunt. A rising vote of thanks was extended the colonel for his assistance in staging the drill at the opera house.

The secretary also read a letter from Major Dalton extending thanks for the kindnesses shown him during the trip and also a letter was read from M. R. Gates with thanks for a set of cuff buttons which the lodge had presented him, upon his leaving Jacksonville. A letter of praise was read from Elpedi Temple of Peoria and along with their fraternal greetings they complimented Ilderim temple for the excellent work done at the convention.

Ralph L. Dunlap was heard in a splendid address telling of the trip of the team and of the many interesting points along the way and there. He is not a member of the team but was on the side line so could judge of the merits of the boys against the other teams. Mr. Dunlap, in behalf of the members of the drill team, next made a very appropriate speech after which he presented Capt. McCarty a beautiful Knights of Pythias ring, containing the emblems of the lodge. This was expressly the gift of the team members and when it was handed over to the captain he was so moved by the fellowship expressed that for a few moments he could not respond, but when he did his words were from the heart and all together the feeling which prevailed at last night's meeting will long remain.
